## Acadia University

Join us for an engaging session where you'll learn what makes Acadia University a top choice for your post-secondary journey. We'll cover academic program options, student life, admission requirements, and scholarship opportunities, giving you the key information you need to take the next step. Bring your questions and get ready to picture yourself at Acadia!

## Agriculture in the Classroom

Design a variable rate irrigation system that demonstrates how precision agriculture helps farmers make decisions about their farming operations. Learn about careers associated with precision agriculture and sustainability.

## Ally Beauty Academy

Explore the exciting opportunities available at Ally Beauty Academy in this engaging session. Learn about our Nail Technology, Aesthetics, and Medical Aesthetics programs, and gain insight into student life. Join us to explore how our programs can help you achieve your career goals in the beauty and wellness industry.

## Anglophone East School District

In this session, we will discuss the different pathways to becoming a therapist or mental health professional, including options like school counselling, clinical psychology, social work, family therapy, and counseling in general. The session will also emphasize the importance of gaining practical experience and pursuing continuous professional development in this rewarding field.

## Bachelor of Health Sciences Radiography

If a career providing exceptional care to patients while conducting imaging exams on high-tech equipment appeals to you, come check out this presentation on radiography.

## Canadian Welding Bureau Welding Foundation

The CWB Welding Foundation is dedicated to promoting and supporting the welding industry, with a focus on education, training, and career opportunities. The Foundation works to develop and advance the skills of welders while increasing the growth of the profession.

The CWB Welding Foundation will be presenting a career overview on welding and exploring various career paths within the welding and related fields. We are excited to also be part of the upcoming Career Expo Showcase, where we will have a Try a Trade booth. Visitors will have the opportunity to experience hands-on welding through our Miller Welding Simulator

## Cape Breton University

Curious about what Cape Breton University brings to the table? In this breakout session, you'll be introduced to a wide variety of CBU's innovative programs in Arts, Science, Business and Health, and learn about scholarship opportunities, study abroad options, student support services, residence, athletics and more. Come explore how CBU can help you turn your passions into success!

## Crandall University

Session Title: Take Charge of Your Future

Students will learn how to successfully transition from high school to university and more specifically about what Crandall has to offer. We will cover information about admissions and programs at Crandall and opportunities and support for our students.

## Don-More Surveys & Engineering Ltd.

Join us to learn about some of the careers in Geomatics. We'll walk through the various stages of a property development and a boundary dispute, and the many career opportunities that present themselves in those processes. Let us help you find one of the many paths that leads from High School to a fulfilling career.

## East Coast Trades College

East Coast Trades College focuses on hands-on learning in the vocational trades sector, offering a diverse range of trade programs. This private institution emphasizes the development of practical, real-world skills crucial for students to succeed in their chosen trades. Through industry partnerships, East Coast Trades College provides students with essential hands-on experience three days a week, balancing this with two days of classroom instruction per week. This immersive approach enriches their skill set, preparing them to excel in the fast-paced and competitive trades industry.

## Horizon Health – Employment Opportunities

Join our Talent Acquisition Specialist who will share with you information about Employment Opportunities at Horizon Health Network.

## Horizon Health – Career Exploration Opportunities

Join our Education Placement Specialist who will share with you information about Career Exploration Opportunities at Horizon Health Network.

## IDEA Centre

We will host a session outlining the IDEA Centre, available to current Grade 10 or 11 students. We will cover alumni projects, brainstorm how our team can support students, and do some brainstorming and ideation activities for interested students.

## Moncton Flight College

MFC Training (Moncton Flight College), is one of Canada's oldest and largest flight schools, we have had a rich history since 1929!

We will talk about how we can turn your love for flying into a career, from the flight training to the licenses you'll earn. We will also cover the exciting opportunities of becoming a pilot, showing how it's not just a job, but a soaring adventure that can take you sky-high!

## Mount Allison University

Come visit the #1 undergraduate university in Canada for a record 25th year! Mount Allison alumni and Admissions Counsellor, Riley, will be chatting about degree options and all opportunities Mount A has to offer.

## Mount Saint Vincent University

Mount Saint Vincent University's recruitment presentation showcases our dedication to nurturing an inclusive and supportive environment for every student. It will highlight our diverse academic programs, comprehensive student services, and a wealth of campus involvement opportunities, all centered around personalized learning experiences. We will also discuss the ongoing support we offer to ensure student success, encourage community engagement, and celebrate the vibrant campus life at MSVU.

## NB Teen Apprenticeship

This session will introduce how NBTAP can help high school students start a career in the Skilled Trades.

## New Brunswick Community College

NBCC is a learner centered college with 6 campuses and over 90 programs across the province of New Brunswick. With so many options, it is easy to feel confused when it comes to determining the right career path for you. Come learn how NBCC can help you get the skills and education you need for the workforce.

## Oulton College

Our sessions will highlight Oulton College's Health programs. Both Sherri Rudolph and Cassie Hudson will cover all our Health program offerings. Sherri, our Director of Nursing, will place a particular focus on our Practical Nurse and Bachelor of Science in Nursing programs. Cassie, our Program Coordinator and instructor for our Paramedic program, will focus more on Paramedicine while still covering all Health-related programs.

Come prepared with your transcript!

## Saint Mary's University

General information regarding Halifax as city, and the exciting student community that lays within. In-depth information about our programs at Saint Mary's, admissions process, and student extracurricular opportunities while studying. Scholarship, application, and financial information, as well as course registration round it off, alongside some general tips for preparing for life as a student.

## Skilled Trades NB (Apprenticeship NB)

This session is designed to provide students with a fundamental understanding of the apprenticeship and certification process. We will discuss the process of registering as an apprentice and completing the apprenticeship program as well as the resulting certifications that we provide. We will also address the demand for and importance of Skilled Trades currently and in the coming years.

## St. Thomas University

You will learn more about post-secondary opportunities at St. Thomas University. We will focus on areas of study and career tracks that have allowed our graduates to prepare for rewarding careers in business, law, healthcare, social work, education, and more!

## Université de Moncton

Did you know that your first year at Université de Moncton could be free? Come learn about our bursaries, French Immersion program and so much more with Nicholas uMoncton.

## University of New Brunswick \*\*

UNB is Canada's oldest English-speaking university! UNB 101 aims to answer all your questions about the University of New Brunswick. If you're unsure where to start, start right here! The topics we'll cover include:

- Academic programs
- Student services
- Residence options
- Campus life

Admissions on the Spot (AOS) for grade 12 students interested in applying for non-competitive programs for Fall 2024.

\* For students that are interested in participating in Admissions on the Spot, if they could bring their transcript that would be great!

## UNB Geodesy and Geomatics Engineering

Geodesy and Geomatics Engineers explore and shape the world by mapping the ocean floor, creating 3D models, and developing advanced navigation systems. Our GGE program offers hands-on learning in geomatics and surveying, with opportunities to work in exciting environments like mountain ridges, ocean cliffs, and urban landscapes. If you're passionate about technology, exploration, and problem-solving, come learn about how this field opens doors to a dynamic and impactful career.

## UNB Renaissance/School of Leadership

UNB's School of Leadership Studies program (Formerly RC) empowers you to be a leader in any path you choose through an innovative, interdisciplinary, and accelerated BPhil degree in leadership. With over 40 UNB minors to choose from, you can tailor your academic experience to your interests and even complete the program in three years by taking advantage of domestic and international internships. As an intentional learning community, SLS emphasizes discussion-based and experiential learning grounded in strong theoretical foundations. This unique approach helps you better understand yourself, others, and the world while forging your personal and professional path.

## University of Prince Edward Island

Want to learn more about the University of Prince Edward Island and its unique opportunities? We'll discuss Island life, big futures, and much more!

\*This session will also cover the Atlantic Veterinary College (AVC), the only institution in Atlantic Canada educating Doctor of Veterinary Medicine.

## Working NB

Deciding what to do after graduation can be difficult. In the session you will learn about the services Working NB offers and how they may assist you in determining the next steps following graduation. We will discuss Career vs. Job and steps you can take now to help the transition to life after graduation a little easier. Be prepared to engage in discussion and actively participate. No cell phones please.
